IMPORTANT SURVEY INFORMATION : PLEASE READ CAREFULLY

SURVEY FOCUS

Welcome, you have been invited to participate in this survey as part of your organisation's submission to the Health + Wellbeing Equality Index (HWEI). The HWEI's main purpose is to benchmark and gauge the effectiveness (or otherwise) of initiatives that promote greater inclusion of people of diverse sexuality and/or gender. We acknowledge that diverse sexuality and gender may be only one of many diversity within your service delivery.

WHO CAN PARTICIPATE

This survey is open to ALL employees of participating organisations, regardless of how people personally identify.

CONFIDENTIALITY & IDENTIFYING INFORMATION

This survey is managed by Pride in Health + Wellbeing, Australia's not-for-profit health sector support program for the inclusion of people of diverse sexuality and gender within care and wellbeing services. Pride in Health + Wellbeing is an ACON program. Participation is anonymous. The only identifying information collected is the name of the organisation that you work for. Data is reported at aggregate level only with high level trends and commentary being presented back to the employer to assist in determining the overall impact of work in this area. Please DO NOT include any identifying comments within free-form commentary. De-identified data may also be analysed by our academic advisers under strict confidentiality and ethics approvals in order to identify patterns and correlations that can assist in determining the effectiveness or otherwise of initiatives.

Participation in this survey will not impact your employment with the organisation nor will your individual information be shared with the service.

ABILITY TO IGNORE QUESTIONS OR EXIT AT ANY TIME

While there will be some demographic data that will require a response (indicated by *), you may choose not to respond to any questions that you do not feel comfortable responding to. Rather than including a Prefer Not to Respond option for all questions, please simply ignore any questions you do not wish to answer.

However, should you wish not to continue with the survey, simply close down the browser. This will exit the survey altogether. This is the only time you would use browser buttons. Your survey responses will be submitted once you hit the SUBMIT button on the final page.

IMPORTANT INFORMATION IN REGARD TO SURVEY TERMINOLOGY

IMPORTANT INFORMATION IN REGARD TO SURVEY TERMINOLOGY

While we often use, and most people understand the acronym LGBTQ to refer to Lesbian, Gay, Bisexual, Transgender and Queer people (and it is widely used within diversity programs both here and internationally), we are aware that the acronym can be problematic and potentially exclusive of many people within our communities.

Pride in Health + Wellbeing has also affirmed the Darlington Statement in support of intersex-led organisations driving all work and support in terms of intersex inclusion within the workplace. For more information on the Darlington Statement and how this impacts the work of Pride in Health + Wellbeing, the HWEI and this survey, please go to www.prideinclusionprograms.com.au/intersex-inclusion.

To reflect the above, our language has now changed from LGBTQ to the following terminology:

- Sexuality and gender diverse;
- People of diverse sexuality and/or gender,
- Diverse sexualities and gender; or
- Sexuality and gender diversity

To ensure that you are able to respond to the initial questions within the survey, please ensure that you are comfortable with our meaning of the following terms:

OF DIVERSE SEXUALITY? Answering yes would mean that you are gay, lesbian, bisexual, pansexual, asexual or identify with any sexuality other than "straight/heterosexual"

OF DIVERSE GENDER? Answering yes would mean that you have a trans history or experience or that you identify as non-binary, agender, gender diverse or any other diverse gender identity.

CLIENT we have used the term client though out this survey for simplicity. This term is used to cover care service recipients, patients, residents, customers, participants or other who utilise a service.
